

PARENT DRIVING LOG

Date/ Time	Driving Time (Hrs.)	Day/ Night	Parking lot, Back road, City, Highway?	Weather Condition	Driving Skills Practiced

Massachusetts requires Parents/Guardians to drive 40 (forty) hours with their teens. Practice at home is one of the most important factors in training a safe driver. 95% of students who pass the road test on the first try have practiced at least the minimum required hours. CMSC Driving School instructors are the best in New England--including police, professors, and professional drivers. They will teach your child the best techniques to be a safe, licensed driver, but, as with any skill, they must practice. Every time you have to go somewhere, let them drive and try the road test skills like parallel parking, 3-point turns, and reverse driving.
